/// Education

05/2025
BS:
Computer Science: Software Engineering
Drury University
Springfield, MO
3.5 GPA

/// PROJECTS

Salon Scheduler Web App – Full-Stack Personal Project –
Developing a full-stack web app for a salon business, featuring a responsive homepage, portfolio gallery, contact form, and appointment scheduler. Built using React, JavaScript, CSS, Node.js, and PostgreSQL via Supabase. Bundled with Vite and deployed to Netlify.

Drury Mirror App – Capstone Project –
Contributed to an article publishing platform with a mobile and web frontend. Took over from a previous team, completed development sprints, and prepared the app for future release. Tech stack included JavaScript, React, and Node.js.

Android Weather App –
Built a zip code–based weather app using React Native and JavaScript, with a MySQL-backed server for authentication. Implemented token-based login with encryption and clear client-server separation.

/// EXPERIENCE

Community Foundation of the Ozarks - Systems Intern
Springfield, MO
February 2025 - Present
- Spearhead company-wide cybersecurity initiatives, reducing phishing risk by 10% through administration of KnowBe4 simulations and reporting.
- Manage the SharePoint company site, maintaining and updating as needed. Includes adding new pages and sites when needed.
- Use the C-Suite system to run a variety of tasks, including admin roles, weekly audits, IT support for the software.
- Ensure all hardware and software are functional for meetings, conferences, etc. Hardware support includes the security system, computers, TVs, etc.

AutoZone - Sales Manager
Springfield, MO
June 2023 – February 2025
- Lead a team of sales associates, providing guidance, coaching, and support to drive their performance and meet sales goals.
- Demonstrated in-depth knowledge of AutoZone's products, services, and policies to assist customers with their automotive needs.
- Resolved customer issues and concerns in a professional and timely manner, maintaining a high level of customer satisfaction.
- Fostered a positive and collaborative work environment, boosting team morale and productivity.
